Electronic Communication

In order to reduce the paper wastage to protect our environment, and deliver the paperless real-time information (e.g.: Circular / Urgent News of the Club) to our members more effectively, the Club is planning forward to become more environmentally friendly to use the Electronic Communication (e.g.: Email & SMS) in the future, while the present way of Paper Mailing will be replaced gradually to serve the purpose. To achieve this, your help to complete our internal database is of utmost importance to us. Please read this form and fill in **one of following parts** to indicate your preference to us.

Part A – For members who would like to **change or update** the correspondence detail to us for electronic communication in the future, please fill in Part A and return to us accordingly.

Part B – For members who prefer to **receive** the information and news updates **by paper mailing**, please fill in this Part B and return to us accordingly.

Part C – For members who **refuse** to receive any information and news updates **by both email and paper mailing**, please fill in Part C and return to us accordingly.

Remarks:

- If **No Reply** is received by the Club, we will assume the members prefer to receive the information of the Club **by Electronic Communication with our existing record in database.**
